Course Objectives/Course Outline
Spokane Community College

Course Title: Mechanical Drive Systems Theory

Prefix and Course Number: FLPT 232

Course Learning Outcomes:

By the end of this course, a student should be able to:

- Understand servo and stepper motor drives
- Understand Lead screw technologies
- Understand variable speed drives
- Understand drive controls

Course Outline

- I.
 - A. Servo and stepper motor drives
 - B. Lead screw technologies
 - C. Variable speed drives
 - D. Drive controls
