

Course Objectives/Course Outline
Spokane Community College

Course Title: Career Assessment

Prefix and Course Number: FOD 260

Course Learning Outcomes:

By the end of this course, a student should be able to:

- Research all prior college course work, fire officer training both at the basic, advanced and in-service levels they have attended.
 - Acquire documentation for any of the education and training listed above, to include the dates for attendance, degrees, certificates, grades, number of hours and brief description of course content.
 - Document all types and length of assignment for fire officer experience that may be considered for non-traditional credit.
 - Apply the documentation for parity to the SCC Fire Officer course(s) they plan to submit for non-traditional credit course consideration.
 - Write a justification for non-traditional credit award.
