

Spokane Community College

COURSE LEARNING OUTCOMES (CLO) AND OUTLINE

Course Title: Foundational Principles in Nursing

Prefix and Course Number: NURS 101

Version Date: 5/4/2021

Course Learning Outcomes

By the end of this course, a student should be able to:

1. **Professionalism:** Identify accountability and integrity while utilizing legal standards and ethical values that govern professional nursing practice.
2. **Collaboration:** Identify care with the patient, significant support systems, and other members of the healthcare team to achieve optimal patient and organizational outcomes.
3. **Clinical Decision Making:** Identify best current evidence-based practice and clinical judgment to ensure patient, staff, and system safety in a variety of healthcare settings.
4. **Caring:** Identify partnerships with the patient as the source of control in providing compassionate care based on respect for the patient's preferences, values, and needs.
5. **Management of Care:** Identify care based on principles of delegation, supervision, resource management, and information technology for patients in a variety of settings.

Course Outline by Concept:

- I. Nursing Process
- II. Assessment
 - a. Neuro Assessment
