

Spokane Community College

COURSE LEARNING OUTCOMES (CLO) AND OUTLINE

Course Title: Ethics and Policy in Healthcare I

Prefix and Course Number: NURS/PHIL 202

Version Date: 5/4/21

Course Learning Outcomes

By the end of this course, a student should be able to:

1. **Professionalism:** Practice accountability and integrity while utilizing legal standards and ethical values that govern professional nursing practice.
2. **Collaboration:** Understand, compare, and contrast the core moral principles and ethical theories used to support ethical evaluations and decisions that affect the well-being of people and groups within the context of healthcare professions.
3. **Clinical Decision Making:** Analyze the core moral principles and ethical theories and apply to current nurse practice and connect the use of best current evidence-based practice and clinical judgement in nursing.
4. **Caring:** Analyze partnerships with the patient in providing compassionate and ethical care based on the patients' preferences, values, and needs.
5. **Management of Care:** Connect the use of moral principles and ethical evaluation to care based on patient advocacy, delegation, resource management and information technology for patients in a variety of healthcare settings.
