

Spokane Falls Community College
COURSE LEARNING OUTCOMES

Prefix and Course Number:	AS 172
Course Title:	Family Systems and Adolescent Treatment in Addictions
Version Date:	10/01/2019

Course Learning Outcomes

Upon successful completion of the course, the student will be able to:

1. Recognize the importance of involving the client's family, significant others, social networks, including extended, kinship, or tribal family structures and community systems in the intervention, diagnosis, treatment and recovery process to enhance and support planning and treatment.
2. Identify the characteristics and dynamics of families, couples, and significant others affected by substance use using a comprehensive and diversity sensitive process and in order to assist in adopting strategies and behaviors that sustain recovery and maintain healthy family relationships.
3. Explain the impact of drug use and addiction during adolescent development and the implications for substance use treatment within the adolescent treatment system.
