<b>Course Title:</b>	<b>Treatment Theories for Addictions</b>
<b>Version Date:</b>	10/01/2019

---

**Course Learning Outcomes**

Upon successful completion of the course, the student will be able to:

1. Define major theories related to counseling and addiction treatment; differentiating between general counseling theories and scientifically supported models of treatment for addictions
2. Explain the importance of research and outcome data and their application to clinical practice.
3. Assess personal values, beliefs, and accepted treatment theories in order to describe a personal approach to addiction counseling.
4. Apply helping strategies and treatment modalities to the client's stage of dependence, change, or recovery.
