**Course Learning Outcomes**

Upon successful completion of the course, the student will be able to:

1. Add, subtract, multiply and divide whole numbers, decimals, proper, improper, and mixed fractions; check and estimate computations, and round numbers to indicated positions.
2. Add, subtract, multiply and divide proper, improper, and mixed fractions; convert between types of fractions and reduce answers to lowest terms.
3. Convert between decimals, fractions, and percentages in order to calculate such factors as an increase or decrease in percentage, discount, or markup.
