

Spokane Falls Community College
COURSE LEARNING OUTCOMES

Prefix and Course Number:	BUS 111
Course Title:	Percents and Simple Interest
Version Date:	01/28/2020

Course Learning Outcomes

Upon successful completion of the course, the student will be able to:

1. Convert between decimals, fractions, and percentages in order to calculate such factors as increase/decrease in percentages, discounts, and markups.
2. Apply part, base, rate calculations to evaluate data and formulate answers that can be applied to business problems.
3. Calculate monthly payments based on the amount of interest charged, percentage rates applied, and the time elapsed.
