<b>Version Date:</b>	<b>01/06/2020</b>

---

**Course Learning Outcomes**

Upon successful completion of the course, the student will be able to:

1. Learn the specific language of economics
2. Use basic economic models like PPFs and supply and demand to analyze and predict real world outcomes and interpret how elasticities affect market outcomes
3. Interpret and apply microeconomic models to analyze the economic choices of household and firms
4. Apply macroeconomic tools and models to explain changes to the Macro economy and identify appropriate government policies used to respond to macroeconomic problems like recessions and inflation
