

Spokane Falls Community College
COURSE LEARNING OUTCOMES AND OUTLINE

Prefix and Course Number: EDUC 282
Course Title: Paraeducator Practicum II

Version Date: 2/27/19

Course Learning Outcomes

Upon successful completion of the course, the student will be able to:

1. Provide evidence of attainment of skills required of paraeducators as defined through Washington State Paraeducator Standards.
2. Reflect on the philosophy that ALL students can learn and contribute related to field experience and practicum.
3. Reflect on contributions to certificated/licensed staff and paraeducators.
4. Explain the need to practice ethical and professional standards of conduct, including the requirements of confidentiality, health and safety, and emergency procedures.
5. Document through evaluations the ability to communicate with colleagues, follow instructions, use problem solving and other basic skills that will enable the paraeducator to work as an effective member of the instructional team.
6. Judge their ability to provide positive behavior support and management.
7. Document and provide examples of the ability to utilize appropriate strategies and techniques to provide instructional support in teaching and learning, as developed by the certificated/licensed staff.
