

Spokane Falls Community College
COURSE LEARNING OUTCOMES

Prefix and Course Number:	ENGR 111
Course Title:	Engineering Projects
Version Date:	March 2, 2021

Course Learning Outcomes

Upon successful completion of the course, the student will be able to:

1. Apply the Design Process Cycle from conception to build.
2. Function effectively in a team environment; delegating work, communicating and coordinating to achieve a common goal.
3. Correlate experimental results with analytical expectations.
4. Prepare written communications detailing project progress: proposal, timeline, updates, final report.
