

Spokane Falls Community College
COURSE LEARNING OUTCOMES

Prefix and Course Number: GEOG& 102
Course Title: World Regional Geography
Version Date: 3/17/21

Course Learning Outcomes

Upon successful completion of the course, the student will be able to:

1. **Identify the unique character and pattern of individual geographic regions.**
2. **Analyze the reciprocal relationship between humanity and the landscapes they occupy.**
3. **Use the tools of geography (e. g. maps, charts, graphs etc.) to understand and describe regions and issues.**
4. **Map connections and linkages within and between regions.**
5. **Discuss the geographic, historic, and economic foundation for current issues of concern and processes working within and among world regions.**
6. **Summarize the cultural diversity of multiple world geographic regions.**
