Prefix and Course Number:	**GRDSN 112**
Course Title:	**Design Technology II**
Version Date: mm/dd/yyyy	**10/31/2019**

Course Learning Outcomes

Upon successful completion of the course, the student will be able to:

1. Produce vector and raster artwork for print and digital publications.

2. Use appropriate software, tools, palettes, and menus to format text, shapes, and images.

3. Create page layouts using styles, master pages for recurring page elements, and modify images using resampling and resizing methods for efficient workflow.

4. Demonstrate understanding of basic html and css by creating responsive websites.

5. Produce single and multiple page layouts using various software applications.

6. Prepare, organize, and package digital artwork for service providers.
