

Spokane Falls Community College
COURSE LEARNING OUTCOMES

Prefix and Course Number:	LMLIB 116
Course Title:	Circulation Systems and Access Services
Version Date:	01/29/2021

Course Learning Outcomes

Upon successful completion of the course, the student will be able to:

1. Apply knowledge of collection arrangement and maintenance in support of access services best practice.
2. Identify the importance of standardized procedures in relation to circulation services, which can include circulation of materials; record keeping; reports generation; resource sharing; or security issues.
3. Articulate the value of circulation policies relating to customer service best practices; patron data privacy; and/or other legal and ethical issues related to circulation and access services.
