

Spokane Falls Community College
COURSE LEARNING OUTCOMES

Prefix and Course Number: Math&141
Course Title: Pre-Calculus I
Version Date: 04/12/2019

Course Learning Outcomes

Upon successful completion of the course, the student will be able to:

1. Demonstrate the fundamental concept of a mathematical function and all of its properties (domain, range, composition, etc.)
2. Solve equations, inequalities and systems using algebraic techniques
3. Graph basic functions and their transformations
4. Identify some connections between the mathematics at this level and the real world
