

**Spokane Falls Community College**  
**COURSE LEARNING OUTCOMES**

---

**Prefix and Course Number:** Math 210  
**Course Title:** Mathematics for Elementary Education C  
**Version Date:** 04/12/2019

---

**Course Learning Outcomes**

Upon successful completion of the course, the student will be able to:

1. Analyze properties of and relationships between geometric figures using multiple methods
2. Apply measurement systems
3. Utilize multiple tools, including technology, to explore geometric concepts
4. Pose conjectures, make generalizations and provide justifications related to geometric relationships
5. Solve problems in multiple contexts using geometric principles and effectively communicate process and results
