

Spokane Falls Community College
COURSE LEARNING OUTCOMES

Prefix and Course Number: OTA 127

Course Title: Lifespan Lab

Version Date: 08/30/2019

Course Learning Outcomes

Upon successful completion of the course, the student will be able to:

1. Demonstrate an ability to formulate relevant questions about developmental processes and events for clients, family and other healthcare professions.
2. Demonstrate understanding of Occupational Therapy Framework in context of human development by being able to describe age-related similarities and differences in components of framework.
3. Demonstrate an understanding of health literacy and the ability to educate and train the client, caregiver, and family and significant others to facilitate skills in areas of occupation as well as prevention, health maintenance, health promotion, and safety.
4. Demonstrate knowledge and appreciation of the role of sociocultural, socioeconomic, and diversity factors and lifestyle choices in contemporary society (e.g., principles of psychology, sociology, and abnormal psychology).
5. Demonstrate ability to recognize typical and atypical development at key points across development and clinically reason to whom referral should be made.
