**Course Learning Outcomes**

Upon successful completion of the course, the student will be able to:

1. Examine strategies to support self and peers in expanding understanding of selected aspects of Level II fieldwork and implementation of the OT process in the clinical setting.
2. Describe skilled OT interventions linked to short-term goals for client(s) at Level II fieldwork site.
3. Provide examples of different types of clinical reasoning in the occupational therapy process at Level II fieldwork.
4. Demonstrate documentation of analysis of interventions' effectiveness toward meeting established short term goals.
5. Construct examples of grading interventions from Level II fieldwork up (increasing complexity) and down (decreasing complexity)
