

Spokane Falls Community College
COURSE LEARNING OUTCOMES

Prefix and Course Number:	POLS&101
Course Title:	Intro to Political Science
Version Date:	01/29/2020

Course Learning Outcomes

Upon successful completion of the course, the student will be able to:

1. Identify major political science concepts, ideas, and theories and examine their relevance to making sense of the political world.
2. Categorize democratic and nondemocratic governmental structures, processes, and policies in Western and Non-Western countries.
3. Discriminate between normative and empirical theories.
4. Compare the emergence and application of ideologies in human societies.
5. Determine the structural context of individual and collective political behavior in the economic, societal, and cultural domain of a state and larger global system.
