

Spokane Falls Community College
COURSE LEARNING OUTCOMES

Prefix and Course Number: PSYC&100

Course Title: General Psychology

Version Date: 04/23/19

Course Learning Outcomes

Upon successful completion of the course, the student will be able to:

1. Demonstrate an understanding of psychological theories.
2. Define concepts appropriate to an introductory psychology class.
3. Recall the scientific method and relate to critical thinking about affect, behavior, and cognition.
4. Illustrate an understanding of the interdependence of biology (nature) and environment (nurture) and their interactions in driving human behavior.
5. Identify various historical roots of psychology, and demonstrate how these continue to find presence in modern psychology.
