Course Learning Outcomes

Upon successful completion of the course, the student will be able to:

1. Describe how effective communication will vary with all stakeholders, including patients/clients, practitioners, and interprofessional team members, (7D7)
2. Discuss when an intervention should not be performed due to clinical indications or when the direction to perform the intervention is beyond that which is appropriate for the physical therapist assistant.(7D21)
3. Discuss examples of when to report any changes in patient/client status or progress to the supervising physical therapist. (7D20)
4. Apply current knowledge, theory, and clinical judgment while considering the patient/client perspective as it pertains to grief and disability. (7D9)
5. Discuss the role of the physical therapist assistant in the clinical education of physical therapist assistant students while using the Clinical Performance Instrument (CPI). (7D14)
6. Describe how the plan of care developed by the physical therapist relates to the short and long term goals and intended outcomes. (7D17)
7. Discuss ways to participate in the health care environment as it relates to the following:
  - a. Delivery of successful patient-centered interprofessional collaborative care. (7D28)
  - b. Performance improvement activities (quality assurance) in healthcare settings(7D29)
  - c. Efforts to increase patient and healthcare provider safety.(7D27)
