# Spokane Community College and Spokane Falls Community College ASSOCIATE IN MATHEMATICS EDUCATION DIRECT TRANSFER AGREEMENT (DTA) DEGREE REQUIREMENTS 

The Associate in Mathematics Education (DTA) degree is an articulated transfer degree agreement for future secondary mathematics teachers between the community colleges and most four-year institutions within the state of Washington. Students will enter the four-year institution at junior standing. Admission to Washington four-year institutions' schools of education is not guaranteed to students holding an Associate in Mathematics Education DTA degree. It is highly recommended that students meet with a counselor or academic adviser at Spokane Community College or Spokane Falls Community College on a regular basis to be sure that requirements specified in this degree are met. Students should also seek academic advising at the four-year institution to which they plan to transfer early in their educational planning to learn about additional requirements and procedures for admission. A candidate for the Associate in Mathematics Education degree must complete a minimum of $90-92$ quarter credits in academic courses numbered 100 or above with a cumulative grade point average of 2.0 and meet specific distribution requirements. Courses must be chosen from the following distribution areas: communication -15 credits, quantitative reasoning -25 credits, humanities -15 credits, social sciences -15 credits, science -10 credits, health-related and physical education/recreational and leisure activities -5 credits, additional required courses $-5-7$ credits. At least 5 credits must be W-designated (writing-intensive). At least 5 credits must be D-designated (global/ diversity). PE activity courses are limited to a maximum of three credits for the entire program. At least 30 credits must be earned in residence from Spokane Community College or Spokane Falls Community College with at least 15 credits earned at the college awarding the degree. Prior college-level and grade points are transferred for calculating total credits and GPA.

[^0]:    NOTE: Some institutions have requirements for admission to the major that go beyond those specified above. Students can meet these requirements by careful selection of additional elective courses. Students should work with a counselor or academic adviser for further guidance specific to their goals.
    NOTICE: Due to the specialized nature of many of the listed courses, students should consult a counselor or academic adviser and the catalog of the four-year institution to which they plan to transfer for specific degree requirements.

    DISCLAIMER: During the period this guide is in circulation, there may be curriculum revisions and program changes. Students are responsible for consulting the appropriate academic unit or adviser for more current and specific information. The information in this guide is subject to change and does not constitute an agreement between the college and the student.
