Course Title: Nursing Care of Patients Across the Life Span
Prefix and Course Number: NURS 104
Version Date: May 4, 2021

Course Learning Outcomes
By the end of this course, a student should be able to:

1. **Professionalism**: Describe accountability and integrity while utilizing legal standards and ethical values that govern professional nursing practice.

2. **Collaboration**: Describe care with the patient, significant support systems, and other members of the healthcare team to achieve optimal patient and organizational outcomes.

3. **Clinical Decision Making**: Describe best current evidence-based practice and clinical judgment to ensure patient, staff, and system safety in a variety of healthcare settings.

4. **Caring**: Indicate partnerships with the patient as the source of control in providing compassionate care based on respect for the patient’s preferences, values, and needs.

5. **Management of Care**: Summarize care based on principles of delegation, supervision, resource management, and information technology for patients in a variety of settings.

Course Outline by Concept:

- **Growth & Development**
  - Development theories
  - Down syndrome

- **Health/Wellness, Illness, Injury**
  - Acute vs Chronic illness

- **Teaching & Learning**
  - Parent and group education

- **Oxygenation**
  - Cystic Fibrosis
  - RSV/Bronchiolitis
  - COPD

- **Infection**
  - Otitis Media, Conjunctivitis
  - Influenza
  - Pneumonia

- **Comfort**
  - End of Life Care
  - Acute and Chronic Pain

- **Metabolism**
  - DM 1 & 2
  - Osteoarthritis
  - Osteoporosis

- **Sensory Perception**
  - Peripheral neuropathy

- **Cognition**
  - Alzheimer’s,

- **Cellular Regulation**
  - Breast & Prostate Cancer, BPH
