

Spokane Falls Community College
COURSE LEARNING OUTCOMES

Prefix and Course Number:	GRDSN181
Course Title:	Web Development I
Version Date: mm/dd/yyyy	10/21/2019

Course Learning Outcomes

Upon successful completion of the course, the student will be able to:

1. Design and create accessible, usable and searchable websites.
2. Produce Hypertext Markup Language (HTML) and Cascading Style Sheets (CSS) for web browsers.
3. Create structural HTML elements and attributes.
4. Describe and produce presentational styling using CSS.
5. Develop CSS documents for controlling multiple web pages and multiple column layouts.
6. Apply graphic design principles to websites.
7. Use effective file management and deliver project files to use on a web server.
