

Spokane Falls Community College
COURSE LEARNING OUTCOMES

Prefix and Course Number:	GRDSN202
Course Title:	Design Technology IV
Version Date:	02/24/2020

Course Learning Outcomes

Upon successful completion of the course, the student will be able to:

1. Produce design solutions that demonstrate intermediate-level use of page layout, photographic and illustrative software skills.
2. Produce digital artwork for pre-press operations that are packaged in the correct color space, images are in correct file formats, and fonts are included.
3. Demonstrate effective time management and planning.
4. Produce and create typographic solutions that are correctly formatted and utilize cascading style sheets.
5. Produce photographic digital artwork that correctly uses named layers, is nondestructive, and is in the correct resolution for various output/media.
6. Create images that look realistic when composited for print media.
7. Research, find resources, solve technical problems, and demonstrate self-directed learning.
