**Course Learning Outcomes**

Upon successful completion of the course, the student will be able to:

1. Produce design solutions that demonstrate intermediate-level use of page layout, photographic and illustrative software skills.
2. Prepare digital artwork for pre-press operations, web content and/or multimedia that are packaged in the correct color space, images are in correct file formats, and fonts are included.
3. Demonstrate effective time management and planning.
4. Create typographic solutions that are correctly formatted and utilize style sheets.
5. Produce photographic digital artwork that correctly uses named layers, is nondestructive, and is in the correct resolution for various output/media.
6. Create images that look realistic when composited for print, web and multimedia.
7. Research, find resources, solve technical problems, and demonstrate self-directed learning.
